# Doug Marshall

London, Ont., Canada

**B**orn in Niagara Falls, Doug Marshall is a familiar face at hickory events around the United States and Canada. The oldest of five boys, Doug played just about every sport available in high school. Later, at McMaster University in Hamilton, Ontario, he played four years of basketball and golf and was elected to the university's Sports Hall of Fame in 1987. Doug majored in business and history and has a second degree in physical education.

After graduation he served for 33 years as a teacher/coach, department head and athletic director, retiring in 1993.

Doug and his wife, Marg, have two children and five grandchildren. "I now enjoy watching their activities, sports and otherwise," he says.

"With summers off, I got serious about getting my golf handicap down to 4-5 and playing up to 20 tournaments per summer. About 1990, my brother, Ian, told me about the GHSC (Golf Historical Society of Canada) hickory hacker events. I tried it and loved it. One of the first real tournaments I played was Pete's (Geordiady) inaugural event at Oakhurst (the National Hickory Championship). I played there for 10 years before sanity and the hills got to me. Loved it though!"

*I am usually reading two or three at a time. Looking back, my favourite is "Tommy's Honor." Before you go to Scotland, you must read this book.*
