Shadow Mountain Golf Club is a semi-private golf course that was built to test but not overtax golfers, the par 70 Palm Desert golf course is one of few in the desert that can still be walked. The course challenges golfers of all abilities and rewards golfers who shape their shots and use their head more than their driver. With over 700 mature palm trees, the fairways are well defined and the challenging greens are protected by well-placed sand bunkers. Tucked in the foothills of the Santa Rosa Mountains of south Palm Desert, Shadow Mountain Golf Club is protected from the winds that plague many desert golf courses.

Lodging: There are lots of options of great places to stay out in the Palm Desert area. If interested in staying at the Shadow Mountain Resort (tennis club) next to the course, they have options available with multi room options. (760) 346-6123
