Special Note about Hickory Golf Clubs

A limited number of hickory sets will be available for rent at \$40.00 per bag and can be shared by 2 players. New hickory players are advised to obtain and use low compression golf balls (e.g. Wilson Duo Soft or similar – compression rating around 37-40). Hickory clubs should only be hit off grass (i.e. no driving range mats) and hitting hard driving range balls should be avoided. We encourage everyone to play with hickory clubs and will do our best to accommodate as many players as possible. We require at least 30 players to meet our event minimums so please consider bringing a guest. Modern clubs may be used if our supply of hickory clubs is exhausted, but every participant will have a chance to hit hickories and experience the history of the game!
